**SEIRfansy predicted β(t) across scenarios**

Legend: Moderate PHI · Strengthened PHI · Moderate lockdown - March 19 · Moderate lockdown - March 30 · Moderate lockdown - April 15

y-axis: β(t); x-axis: Date

Vertical line labels: February 19, 2021 · March 13, 2021 · March 19, 2021 · March 30, 2021 · April 15, 2021

Notes: Points are plotted at the end of range used to estimate β.
Moderate lockdown beginning March 19 is solid purple, March 30 is dashed purple, and April 14 is dotted.
Vertical lines indicate the start of the prediction period.
